

The medical information scene in 2020: being agile and beyond

Eugenie Delvaux

Ingeborg van Dusseldorp

Changes in the Dutch healthcare landscape

- Changes in health care system
- Changes in information
- Changes in education
- Changes in science

The Dutch scene

- Royal Dutch Association of Information specialists (KNVI)
 - Departments,
 - Biomedical Information Department
- Quality working group

Quality working group

- Professionalising
 - Positioning paper 2020
 - Definition of changes
 - Business case
 - BMI congress May 2013, Business School Nyenrode
 - National KNVI congress, November 2013
 - Ultimate business case, November 2014
-

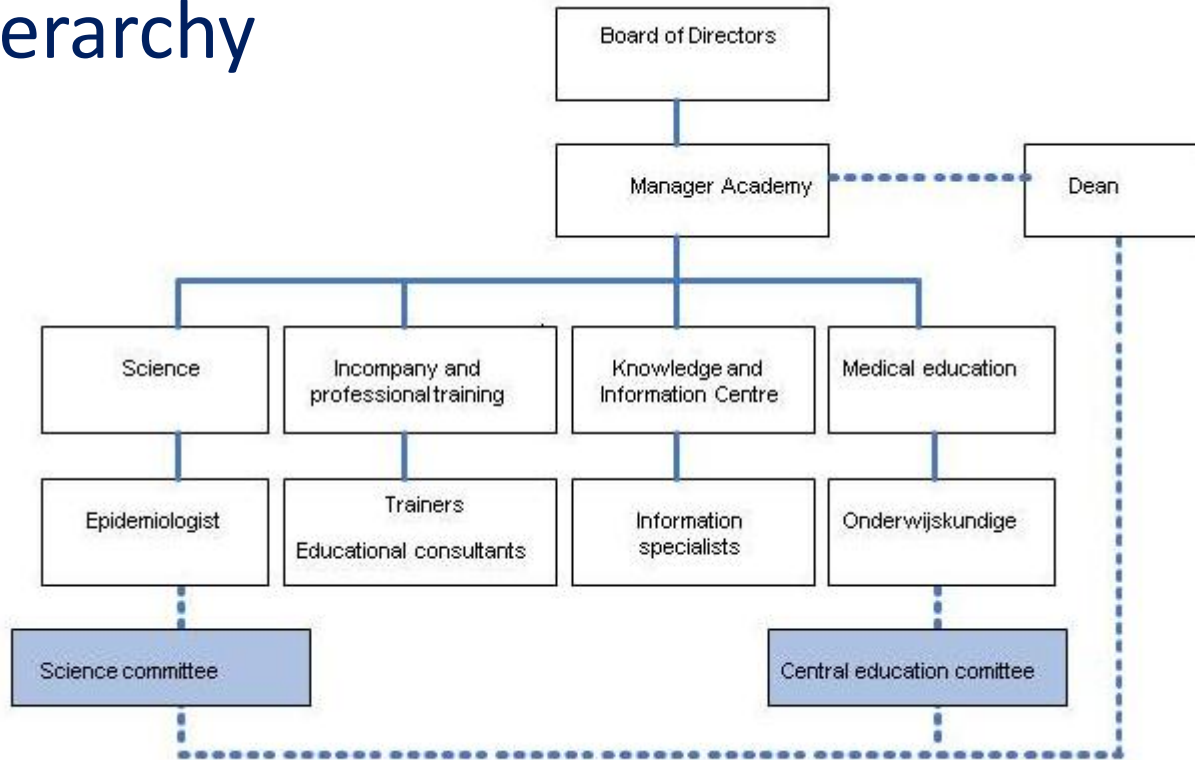

Changing roles

- A role in educational programs
- A role in Electronic Personal Health records
- A role in Document quality management systems
- A role in integrating EBP and EBM
- A role in generating business information
 - Research database
 - Scientific output

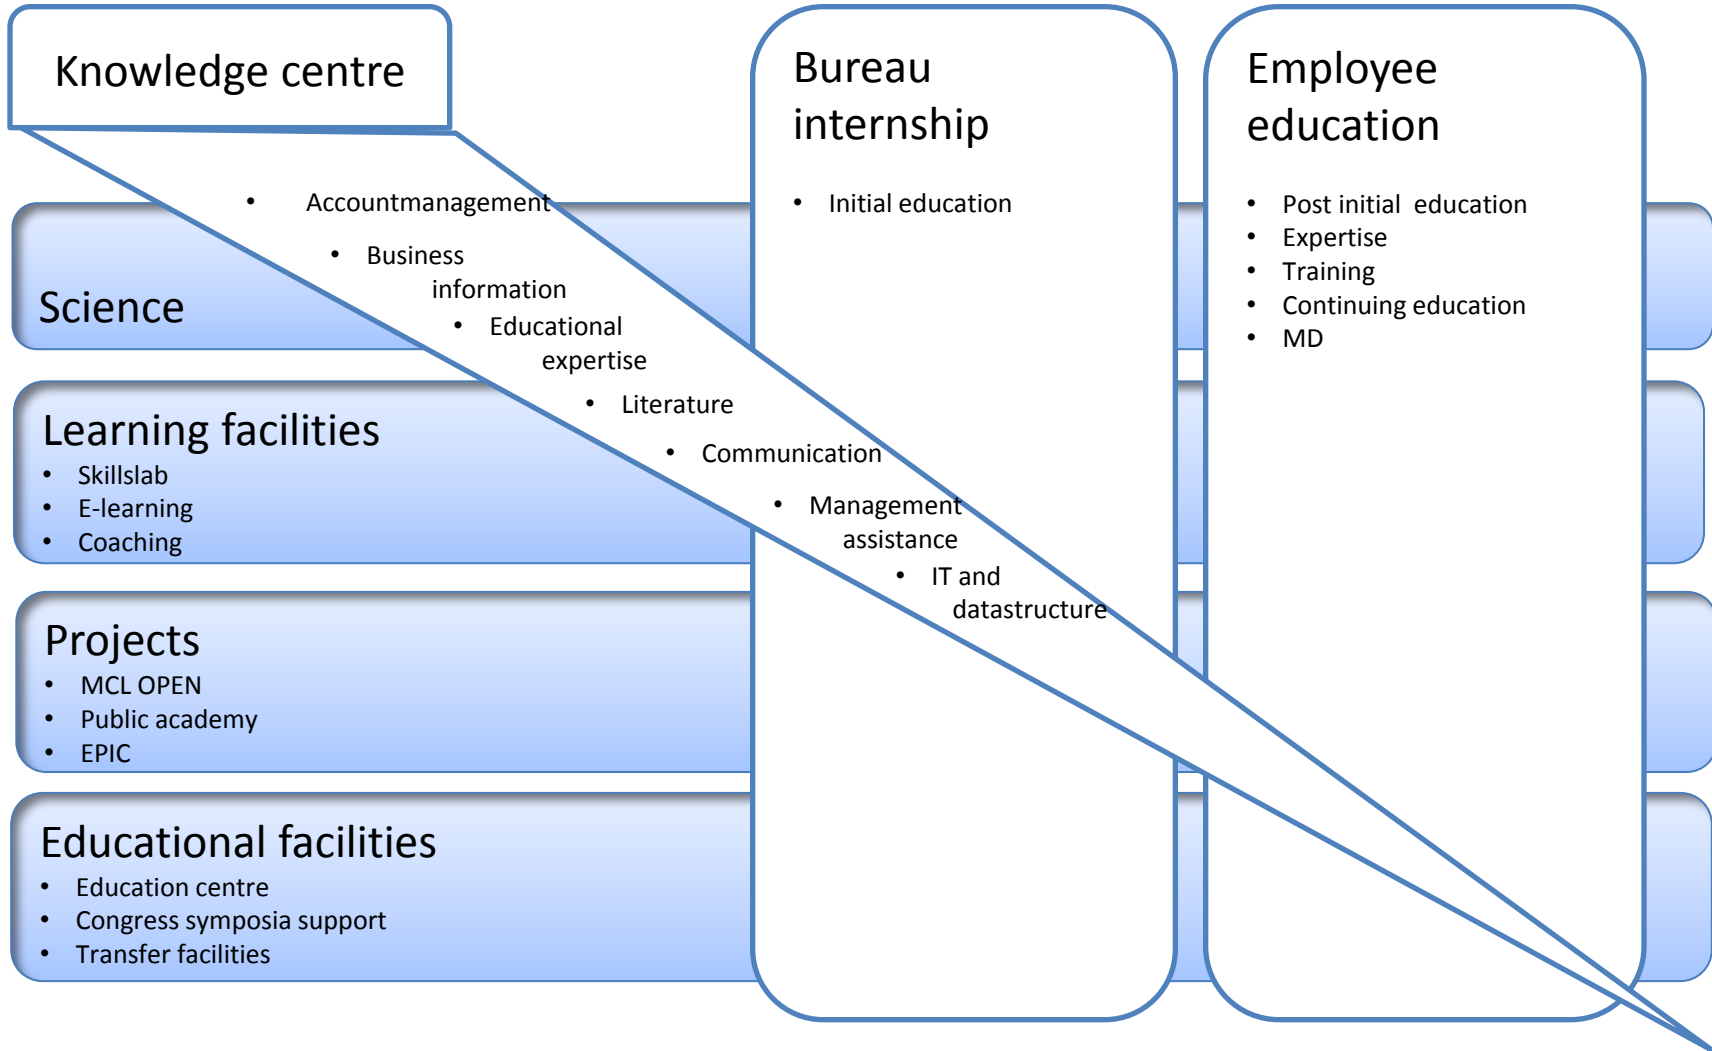

Changing organisations

Changing organisations

- Hierarchy

Changing organisations

United we stand

Biomedical Information (BMI)

- Continuing education and training Committee
 - Information literacy (PubMed, Systematic review, CAT)
 - Presentation
 - Didactics
 - Management skills
- Other groups
 - Consortia, mergers, innovation, information retrieval, psychiatry, quality

United we stand

50 active members
in the BMI department

And beyond...2025

- information specialist as an independent professional?
- Regional networks of knowledge and skills a fact?
- Best of both worlds? Independent professionals in a regional network?
- Or even... national network?...

Thank you!
